

PARTNERSHIP FOR ADVANCED COMPUTING IN EUROPE

The Third Phase of PRACE A User-centric Association

Serge Bogaerts

PRACE Managing Director

PRACE Legacy

- ▶ Result of collaboration initiatives from 2004, **for nearly 20 years**
- ▶ PRACE, the Partnership for Advanced Computing in Europe, is a not-for-profit organisation incorporated in Belgium (AISBL) in 2010
- ▶ Over past decade, members, each representing one of the currently 25 member countries, coordinated their efforts to provide an HPC infrastructure to **enable high-impact scientific research and innovation** across all disciplines and industrial applications, thereby enhancing European scientific, technological and economic competitiveness for the benefit of society

PRACE Legacy (cont'd)

- ▶ Chiefly distributed resources on the Tier-0 world-class supercomputers of HM, on the basis of a globally recognized and **transparent peer-review process** based on scientific excellence
 - ▶ Distributed more than **32.5 billion core hours to 947 scientific projects**
- ▶ Mainly through its EU-funded PRACE-IP projects
 - ▶ Promoted excellence in computational science and engineering by developing knowhow and expertise, e.g. via training, where **25.000 persons were trained**
 - ▶ Application support, technology watch, etc, across Europe
- ▶ Collaborating with European HPC industry and the promotion of innovation by supporting industrial HPC users in particular SMEs

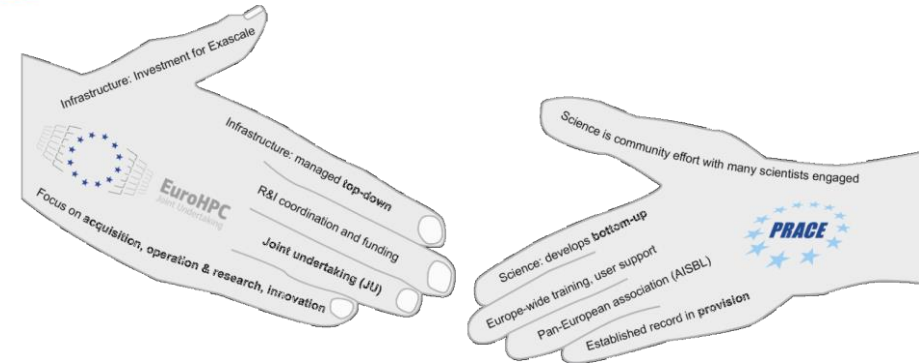

Evolution of the European HPC Landscape

- ▶ Establishment of EuroHPC Joint Undertaking (JU) in 2018
 - ▶ JU to develop a World Class Supercomputing Ecosystem in Europe
 - ▶ PRACE ensured access to EuroHPC resources transparent for the users
 - ▶ PRACE has been proposing its Services to EuroHPC (so far no agreement of provision of services or formal role of PRACE in the JU)
- ▶ End of provision of national resources
 - ▶ PRACE 2 Programme ended 31 March 2023 (after several extensions)
 - No national resources to be distributed by PRACE at this point in time
- ▶ Funding programmes run by EuroHPC
 - ▶ Actions (training, users support, ...) split across several calls (≠ PRACE-xIP projects)
 - ▶ Some actions through service procurement
 - ▶ Not all services by PRACE and its partners covered so far

Fundamentals of PRACE 3

▶ PRACE 3 transforms PRACE into an

Association of Users and HPC Centres in Europe

- ▶ Acknowledging the gap in the new landscape to support users (Academia & Industry)
 - ▶ Independent and beyond political frontiers
 - ▶ Acknowledging the Infrastructure and Political leadership is with EuroHPC which PRACE wants to support as a successful and performing infrastructure
- ## ▶ Pillars and Principles of the third phase of PRACE
- ▶ PRACE **empowers** User Communities
 - ▶ PRACE adopts a **user-centric** approach
 - ▶ PRACE provides support for **best utilization** of EuroHPC Infrastructure
 - ▶ PRACE fosters **International** Collaboration

General PRACE 3 Content structure

- ▶ Content of PRACE 3
 - ▶ Long term perspective, ambitious outlook (open possible options)
 - ▶ Feedback from current and future members following our bottom-up principle
 - ▶ Evaluate feasibility and fix priorities and refine the definition of services
 - ▶ Preparation of corresponding budget and fee for 2024 and plan beyond
 - ▶ Assess PRACE 3 will have critical mass to start with
- ▶ Service-oriented approach
 - ▶ Serve public interest with a (respectful) business management style
- ▶ Two categories of services
 - ▶ Core Services funded by membership fees
 - ▶ Complementary Services funded by projects or contracts

DRAFT

Core Services

▶ PRACE as a representative of the user communities

- ▶ Publish HPC-HPDA-AI-QC Scientific & Industrial Cases
 - ▶ *The users perspective – Formerly PRACE Scientific Case*
- ▶ Recommendations on access mechanisms
 - ▶ *Readability and efficiency of review process*
- ▶ Recommendations on support services or programmes
 - ▶ *Training, applications support, ...*
- ▶ Recommendations on architecture / technology availability

Structured collection
of user communities
feedback

- ▶ Analysis of HPC-HPDA-AI-QC impact
 - ▶ *Achieved scientific excellence and innovation incl. sound methodology dev^{ment}*
- ▶ Maintain close relationship with all European HPC stakeholders
 - ▶ *EuroHPC, Centres of Excellence, Competence Centres, ...*
 - ▶ *European research infrastructures , ...*
 - ▶ *Other European initiatives*
- ▶ Maintain close relationship with actors beyond Europe (International collaboration)

Scientific and Innovation Case 2024 Kick-Off

- ▶ Preliminary highlights
- ▶ Volunteers for topics

DRAFT

Core Services (cont'd)

- ▶ Communication and dissemination activities
 - ▶ Recognise and promote Excellence & Achievement in HPC
 - ▶ *Maintain and develop awards (Ada Lovelace and HPC Excellence)*
 - ▶ Collect and structure information on HPC-HPDA-AI-QC in Europe
 - ▶ *Serve as single point of information/library, for example*
 - ▶ Fact sheets on new systems
 - ▶ News from the communities, systems, calls also international
 - ▶ Job ads
 - ▶ Views from industry associations
 - ▶ Community life (appointments, obituary...)
 - ▶ Networking platform
 - ▶ *Organise access to information depending on audience (e.g. members or not)*
 - ▶ Publish information on different channels
 - ▶ *Newsletter, website & social media*
 - ▶ Annual HPC conference for Science and Industry
 - ▶ *Formerly PRACEdays*
 - ▶ Journal with scientific and technical information
 - ▶ *Targeting HPC-HPDA-AI-QC and including industry*

Core Services (cont'd)

DRAFT

- ▶ Networking and cooperation with HPC Centres in Europe
 - ▶ Identify and promote cooperation & collaboration opportunities
 - ▶ *Collect and review call for proposals*
 - ▶ Organise workshops on selected topics of interest to users
 - ▶ Maintain up-to-date contact database
 - ▶ *Including CRM supporting activities of the Association*
 - ▶ Meeting room in Brussels for members

DRAFT

Complementary Services

- ▶ Peer Review based services
 - ▶ Run Peer Review service (knowhow and platform) for **third parties**
- ▶ Training
 - ▶ Implement missing element of roadmap on training (or pilot prospective elements)
 - ▶ Define and **maintain high-quality** training standards
 - ▶ Deliver training as fit for user needs
- ▶ Efficient use of leadership computers and readiness for innovative computing technologies
 - ▶ Forward-looking software solutions for efficient use of leading HPC systems
 - ▶ Benchmarking (e.g. on *proxy applications* defined by Industry)
- ▶ Defining & designing demonstrators and testing of new technologies
- ▶ Other activities identified by the PRACE Assembly

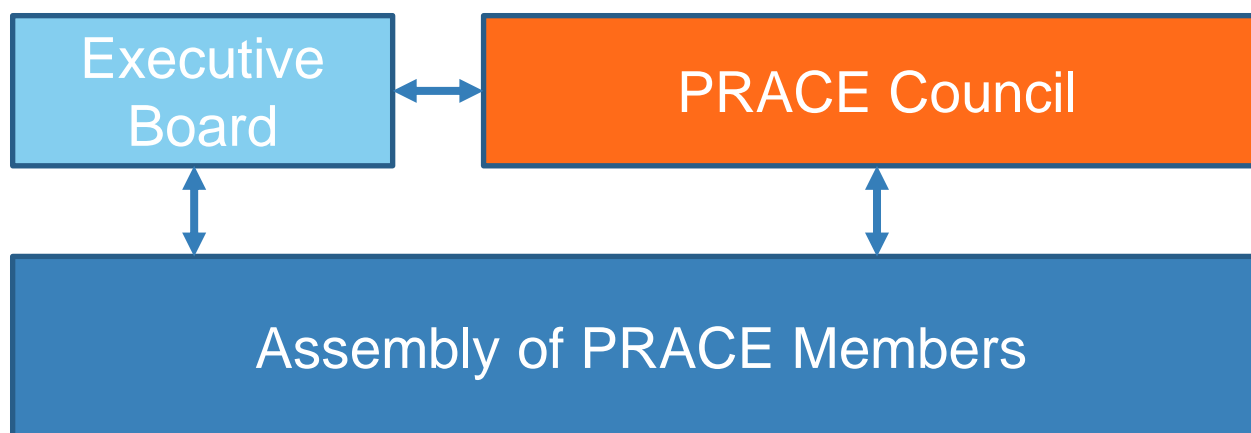

DRAFT

PRACE 3 in 2024

- ▶ Publish the 2024 Edition of the Scientific and Innovation Case
- ▶ Develop a methodology to analyse impact of HPC-HPDA-AI-QC
- ▶ PRACE Ada Lovelace and PRACE HPC Excellence Awards
- ▶ Implement a networking platform & grow membership
- ▶ Inform the members special focus on our complex landscape
- ▶ Promote funding opportunities and identify relevant consortia
- ▶ Run workshops on selected topic (benchmarking, training, ...)
- ▶ Restart the PRACEdays, *Where Science meets Industry*
- ▶ Deliver expertise within EC-funded projects and dedicated services

Governance structure = Two-tier structure

- ▶ Assembly = supreme *deliberative* body of PRACE (an assembly of people for the purpose of unhurried consideration and discussion)
- ▶ Council = operative decision making body steering the actual actions and programmes of PRACE
- ▶ Executive Board = day-to-day management

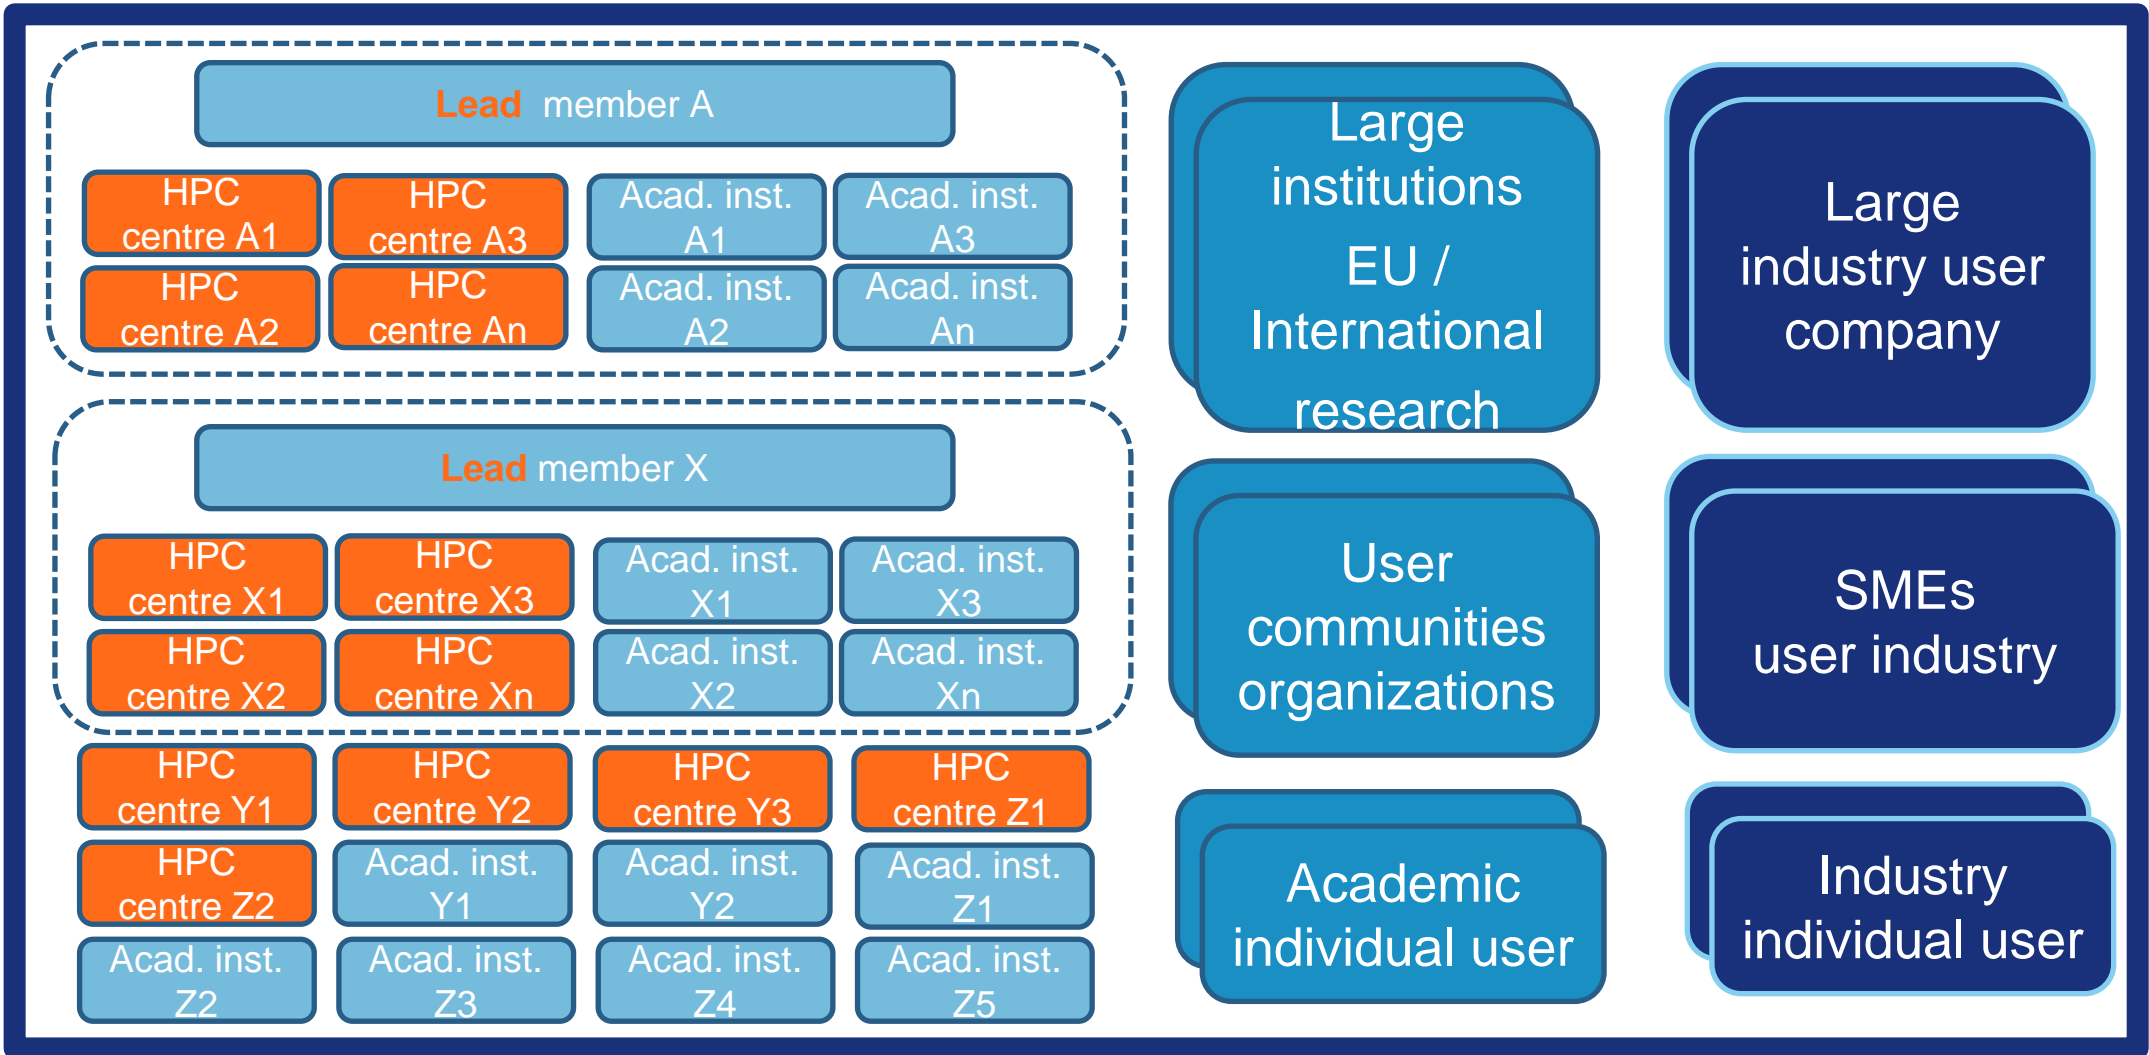

Assembly of members

- ▶ Type of members
 - ▶ Organisations (legal persons)
 - ▶ *HPC centres or HPC agency organizations*
 - ▶ *Academic institutions*
 - ▶ *Commercial companies using HPC*
 - ▶ *Legal entities representing user communities*
 - ▶ *European or international research organizations*
 - ▶ *Lead members*
 - ▶ Individual users (natural persons)
- ▶ Lead members
 - ▶ Countries may wish to gather national institutions and appoint a lead member paying a consolidated fee covering all (max 10) these national institutions (e.g. to accelerate the process of recruiting new members)

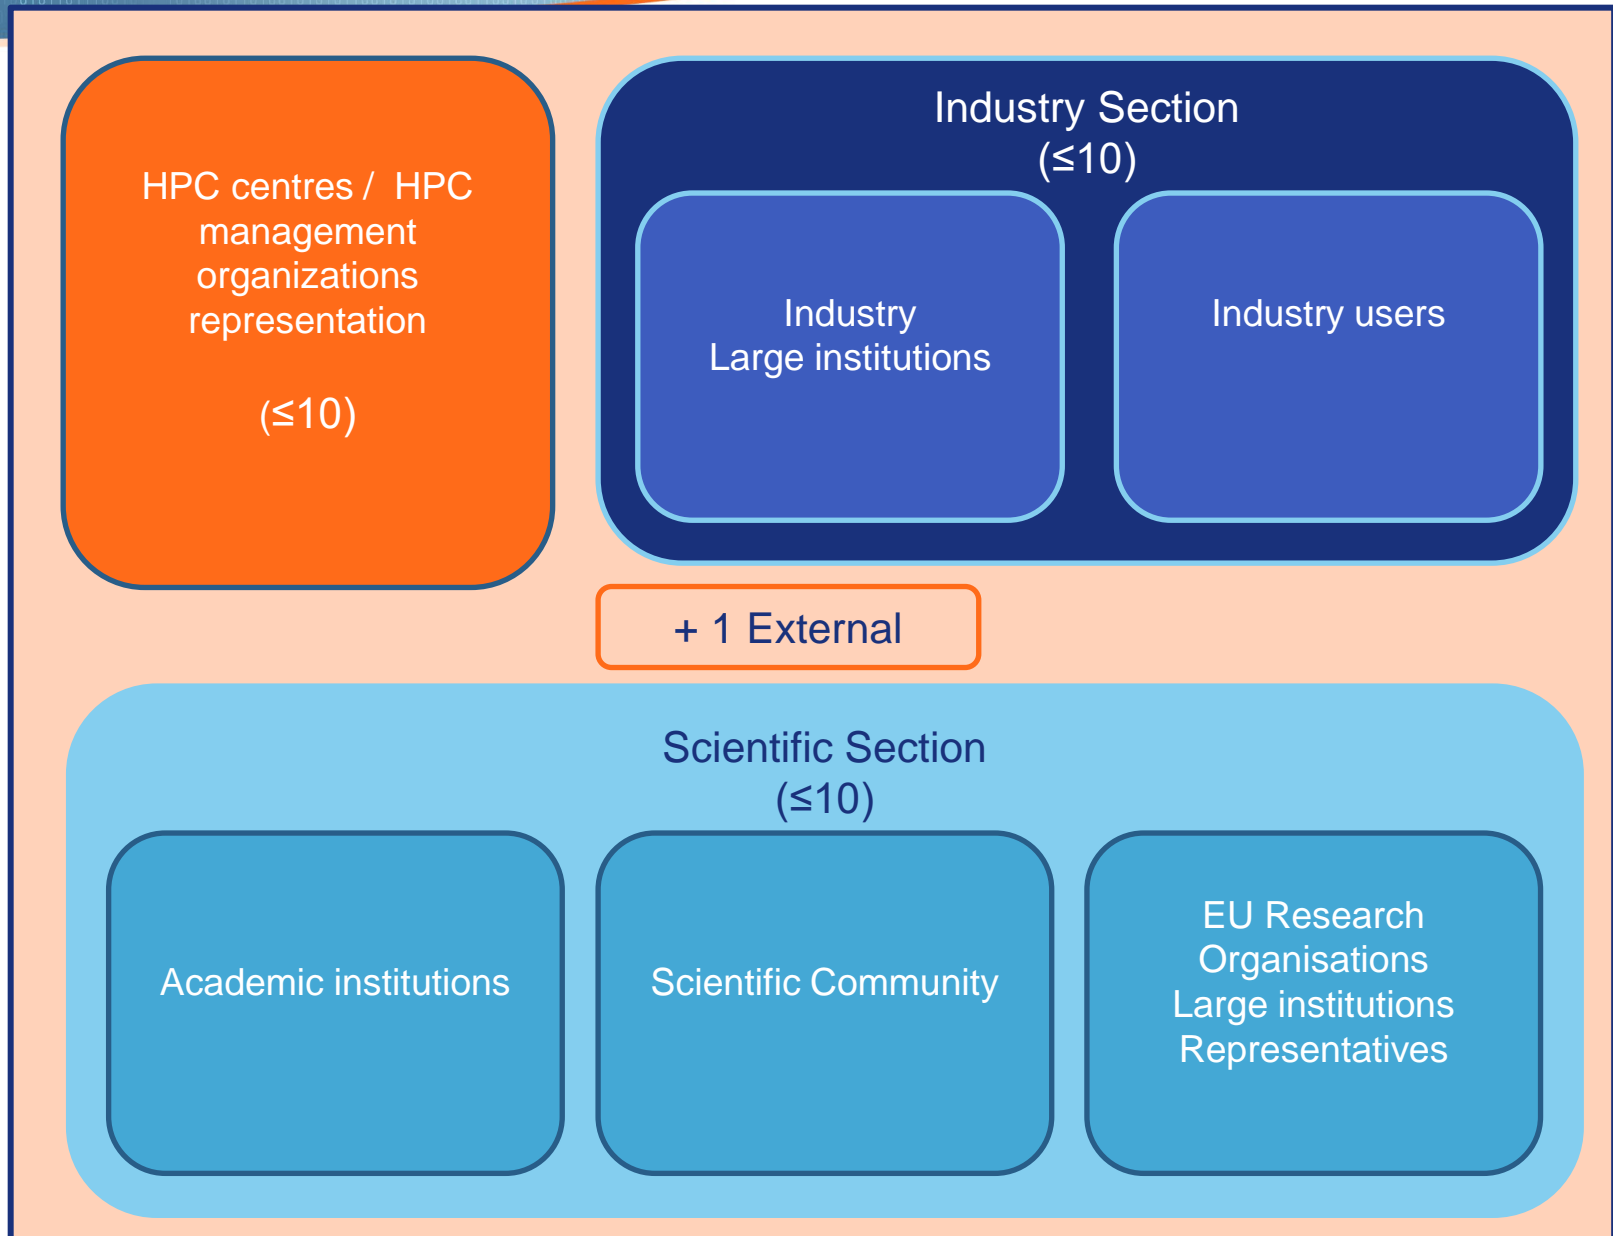

PRACE Assembly of Members

Council

Council

▶ Representative

- ▶ **Representative** of the Assembly but not directly related to any given membership
- ▶ Representative of the communities PRACE supports, also in their diversity, with members that are **recognised as authoritative by their peers**

▶ Size

- ▶ Maximum 30 members, **distributed equally** amongst the HPC Centres, the Scientific, and the Industry Sections + 1 external member (outsider of the HPC community)

▶ Appointed by the Assembly

- ▶ Rules to ensure balanced representativity across the members categories and beyond (emerging communities) **but also** against other criteria (gender balance, geographic spread, type of actor / community, renown, ...)
- ▶ Max 2 consecutive terms; each term max 2 years and/or annual replacement of 1/3 of the Council each year

Executive Board

- ▶ **Role**
 - ▶ Responsible for the day-to-day management of the Association and its office and the proper execution of the Association governance
 - ▶ Responsible for the implementation of the actions and programmes decided by Council (close collaboration with the Chair and Vice-Chair of bodies and WG)
- ▶ **Composition = Directors of the Association**
 - ▶ Managing Director (responsible for overall management of the organisation)
 - ▶ Operations Director (responsible for projects and service contracts execution)
 - ▶ Are amongst permanent personnel of the organisation
- ▶ **Appointment and Supervision**
 - ▶ Directors are appointed by the Assembly
 - ▶ Council oversees the performance of the Executive Board

With a few (not so minor) details

- ▶ Quorum = majority of Institutional Members
- ▶ Decisions at simple majority (abstentions do not influence) one member one vote + weights and limits
 - ▶ Lead and Large Members = 4 tokens
 - ▶ Small and Individual Members = 2 tokens
 - ▶ Associated Members = 1 token
 - ▶ Limit of Individual Members voted tokens to 20%
- ▶ Six (6) decisions at qualified majority
 - ▶ Including Budget and Fees & Amendment of Statutes
- ▶ Right to reconsider

Steps to implement PRACE 3

- ▶ **Amended Statutes approved!** on 18 September 2023 (50th Council)
 - ▶ Result of a constructive consultation process (and unanimous decision)
 - ▶ **Enabled** the implementation of the new governance structure
 - ▶ Does **not yet** constitute **commitment** into PRACE 3

- ▶ **Approval of non-profit purpose**
 - ▶ Notary records new Statutes and sends it for approval by Ministry of Justice
 - ▶ The new structure comes into force when the later approval is published (<Decembre)
 - ▶ Until then we can start implementing *between us*

- ▶ **Call for members (ongoing)**
 - ▶ Current members to state their intent (and revalidate their admissibility)
 - ▶ Opening for new members to join

- **Target to constitute the new Assembly and discuss the content**
 - ▶ Target date **13 December 2023** for first Assembly meeting with initial decisions

Still on time to get **involved!**

- ▶ Comment in the content of PRACE 3 and priorities for 2024
- ▶ Intent to join (possibly with *boundary conditions*)
- ▶ Any other input is welcome

PARTNERSHIP FOR ADVANCED COMPUTING IN EUROPE
